Who sets the pace?

Name _____ Date _____

01 Notice before you explain

Look at Momo's workshop. **Observe** two visible details. **Interpret** what they suggest.

Discuss: can a still picture tell you the speed or who controls it?

Two visible details:

I think they suggest … because …

02 Follow the factory rhythm

Choose two conveyor-belt moments. Separate what happens from what you think it means.

A detail I saw or heard	What it suggests about the pace

Who can change the pace? Support your answer with one detail.

A machine for whom?

Follow one promise through the feeding machine test. Name the person affected.

03 Trace the test

Promise: what should improve?	→	Result: what happens in the test?	→	Human need: what does the person need?

04 Change one part

Sketch or describe one change to the machine or the way work is organised.

My change meets the person's need by …

A trade-off: what could it cost, slow down or make harder?

BEFORE YOU LEAVE

Who should be able to change the pace of work? Give a reason using one detail from the film.

My view, with evidence:
